## ABSTRACT

The paper abstract must begin with the title, which is written in CAPITAL LETTERS, followed in a new line by the abbreviation of the author's first name(s) and the author's last name(s). The affiliation is given in the next line, followed by a comma and the country. A summary of 200 up to 300 words is obligatory. It is followed by a short list of keywords which characterize the content of the paper, in order to make the comparison with the other papers which will be published at the 9th ASPF easier. Therefore, generic terms are not good keywords, whereas special terms of processes are good ones. The list of keywords is followed by the text, beginning with a short introduction and ending with some conclusions. This is concluded by the bibliography list . Please use Roman 12 pt or Times, of similar, these guidelines are written in Times New Roman for the text.

Keywords: guidelines, abstract, format
