

4th JSTP International Seminar on Precision Forging

Organized by the Japan Society for Technology of Plasticity
--- Future Challenges in Precision Forging Technology ---

Introduction for discussion hour

At the 4th ISPF, we are planning to have discussion hour "Challenges for Future Technologies in Precision Forging" on March 22, 2006. That is one of highlights of the Seminar! We would like to find "a Road Map" for the future technologies in precision forging through our discussion. For obtaining a fruitful result, may I ask you to send your personal comments beforehand for reference of our discussion? Please fill out the sheet attached in E-mail, and kindly return back to R. Matsumoto (ryo@me.es.osaka-u.ac.jp) until March 5, 2006.

Very looking forward to hearing from you soon.

Hideo Sekiguchi,
Kazuhiko Kitamura,
Ryo Matsumoto
Secretary, The Organizing Committee of 4th ISPF
